SECURITY SERVICES

The company specializes in planning, implementing, and managing IT-related projects to enhance operational efficiency, digital transformation, and workforce upskilling.

PENETRATION TESTING

We simulate cyberattacks to identify vulnerabilities and strengthen system security before real threats arise.

VULNERABILITY ASSESSMENT

We analyze and detect security weaknesses to help businesses manage risks and enhance protection effectively.

SECURITY AUDITING

We assess and verify security measures to ensure compliance with standards, minimize risks, and improve system resilience.

IT SECURITY TRAINING

We equip your team with essential cybersecurity knowledge to prevent threats and foster a security-conscious work environment.

SOFTWARE LICENSES

The Company provides software licensing solutions to support businesses, educational institutions, and creative professionals. Our services ensure compliance, cost efficiency, and seamless integration with IT systems.

Adobe - A comprehensive suite of creative software, including Photoshop, Illustrator, Premiere Pro, and After Effects, designed for graphic design, video editing, digital content creation, and publishing.

Serif Affinity - A professional design software, featuring Affinity Designer, Affinity Photo, and Affinity Publisher, ideal for vector design, photo editing, and layout creation.

Trimble SketchUp - A user-friendly 3D modeling software for architecture, interior design, engineering, and structural visualization.

Google - A suite of productivity and cloud-based tools such as Google Workspace (Docs, Sheets, Slides, Drive, Meet, Gmail), along with AI-powered and cloud solutions for business collaboration and efficiency.

Microsoft - A collection of business and enterprise solutions, including Windows OS, Microsoft 365 (Word, Excel, PowerPoint, Outlook, Teams), and Azure, providing productivity, IT infrastructure, and cloud services.

Canva - An intuitive graphic design platform for creating social media content, presentations, infographics, and advertisements, suitable for businesses, designers, and marketers.

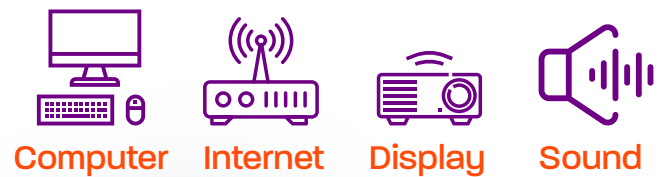

These software solutions enable businesses, educators, designers, and professionals to enhance productivity and creativity.

COMPUTER LAB RENTALS

Training rooms equipped with computers, high-speed internet network, and display screens with projectors for presentations.
